

INTELLIGENT TRANSPORT SYSTEMS UNTIL 2020

TOWARDS A EUROPEAN
MULTIMODAL TRANSPORT
INFORMATION, MANAGEMENT
AND PAYMENT SYSTEM

With the input from stakeholders and experts like you, TRANSFORuM will construct a roadmap towards the implementation of the European White Paper on Transport. Let´s make it happen!

IMPORTANT: STAKEHOLDERS' VIEWS

In order to establish a framework for a European multimodal transport information, management and payment system by 2020 many decisions have to be taken in a co-ordinated fashion. These have to do with data interoperability, compatibility of legal frameworks and secure communications and standardisation. Also legally and culturally different approaches to data policy and data protection must be considered.

Therefore, **operators** on local, regional and international levels (both **for passenger and freight transport**) have to be involved in this transformation process. **Individuals** and **organisations** with expert **knowledge** in **technical, legal** and **related areas** have to get on board and should join the dialogue organised by TRANSFORuM.

Such a consultation takes many forms. Events like our three Joint Forum meetings will bring people together for intense face-to-face discussions. We also use social media and online discussions and will conduct interviews with key individuals in order to identify and build momentum for joint action.

Only through the participation of people like you will TRANSFORuM be able to develop a robust and practice-oriented answer to the question "What needs to be done when and by whom?"
